Course Description:

The Number Sense class is for students in grade 3 and above who understand operation of negative numbers, fraction, decimal, and percent. Students need to know the basic concept of power, root, LCM, GCD, and basic geometry shape. The class will boost students’ interest in mathematics study by showing the underneath rules of calculation, improving their calculation speed and accuracy dramatically. All students can benefit from the Basic Class. The Advance Class is for students who want to perform well in the number sense round in Math League.

Instructor Background:

Ms. Jennie Shen started her first Number Sense class in 2018 to her local students in Phoenix, AZ. Her number sense class has helped her student to rank 1st place in 2019 Math League National Championship number sense round. She started to offer this class to out-of-state Students in 2020. Four of her students ranked in the top 5 in 2020 Math League National Championship number sense round after 8-week training class. Multiple students ranked 1st place in State Championship include State of California. In the last 2 years, eight of her students achieved scores of 300 or higher.
